PROJECT OF:

101, Plot 11-C, 27th Street,
Tauheed Commercial Area,
DHA, Phase-V, Karachi.

Advertising Consultant:

The Future has arrived!

Gwadar is on the verge of a breakthrough in global business dynamics. It holds the most important role in the development of China Pakistan Economic Corridor (CPEC), which is now a reality. Projects are getting operational. Massive development are being undertaken including Industrial Zones, Commercial Zones, Expressways and Motorways, Tax-free Zones, Tourism facilities, and a grand new Gwadar International Airport.

The CPEC route connects Gwadar's deep sea Port with China through a web of Motorways in Baluchistan and Punjab to transfer cargo to China and Central Asia. Besides the upcoming multi-billion dollar Oil City announced by Saudi Arabia, Gwadar is attracting huge investments from many countries. The city, re-planned by Chinese consultants, is ready to compliment the huge growth of the future.

A redefined trade hub

The new, modern master plan of Gwadar has redefined the entire city as a future trade hub. The Shallow sea area (West bay) is designed for tourism, residential and water sports where most of the land use is designated as Residential. The deep sea area (East Bay) is designed for trade/commercial activities with most of land use designated as Industrial (nearly 80% with 60% saleable plots)

ZONE**

The Connected Ports

New Gwadar International Airport is being developed on 4500 acres for air cargo transfers via large cargo aircrafts and the Gwadar Sea Port is being developed to handle the biggest ships of the world. These two ports are connected by the already constructed Gwadar Expressway which by-passes Gwadar city to connect both the ports free of domestic city traffic.

Ideal categories for business

The two ideal land use categories for business in Gwadar are Warehousing, which is highly suitable for cargo storage in a trade-transit city like Gwadar, and Commercial Zone which offers wide range of land use opportunities in the most prime area of Gwadar.

- Warehousing land type offers storage for land-sea cargo from Central Asia, China, and Pakistan to Gulf, Africa, Europe, and America, and vice versa. Warehousing will also assist in temporary/long term transit for land and sea cargo carrier schedules.
- Commercial land is suitable for development of Office Buildings, Airline support facilities, Hotels, Guest Houses, Restaurants, Cinemas, Malls, Markets, Showrooms, Display Centers, Serviced Apartments etc.

CPEC WAREHOUSES GWADAR

Warehouses adjacent to The New Gwadar International Airport

This amazing project is ideally located just next to the new Gwadar International Airport and will offer future developments of cargo handling facilities for individual businessmen as well as national and multi-national companies who want their storage and handling facilities to be located as close as possible to the airport for swift cargo movement.

Saving fuel and time

The main high expense component of carrying cargo is the trucking time and fuel. Being close to the new Gwadar International Airport means exponential savings in terms of the fuel costs, thus cutting the costs of cargo handling and storage. The location also means saving the trucking time.

An aerial photograph of a large cargo ship sailing on the open sea. The ship's deck is densely packed with multi-colored shipping containers in shades of blue, red, yellow, and white. The ship is moving away from the viewer, leaving a white wake in the deep blue water.

Smooth handling of cargo

CPEC Warehouses Gwadar has hundreds of acres of Industrial land all around. The project will facilitate storage of raw materials and finished products for innumerable clients. The location of the project will also offer smooth connectivity of sea to air and air to sea transit cargo. The project is connected via a 300 ft road to the Airport, providing hindrance free movement of cargo to and from the airport.

B&R land

This project also offers B&R land, with business on ground floor and residential facility on the storeys above. This land use is very ideal for developers aiming to develop buildings/properties for living and supporting business facilities on the ground floor. B&R land also offers 300 ft road direct connectivity from the airport and ample parking facilities. Close proximity to the airport also offers ideal connection for frequent travelers.

Also connected to The Residential area

The main road connecting CPEC Warehouses to the new Gwadar International Airport also connects the main residential area of Gwadar with the airport. This corridor has the potential to expand and grow even more as the main connecting artery of Gwadar.

THE FASCINATING
GWADAR COMMERCIAL ZONE

**GWADAR
COMMERCIAL
ZONE**

All commercial activities

Enter the fascinating world of GCZ which is connected directly to the New Gwadar International Airport, offering smooth connectivity in the coming days.

This project offers all facilities that an airport development demands, like space for offices, restaurants for entertainment, hotels for accommodation etc. The upcoming development guarantees a huge footfall in the area. All the commercial activities of the entire industrial zone will only be allowed in the GCZ.
